Sociology: 1 hour of revision

Diagnose the gap in your knowledge

1.	Start with **either** a **PLC** *or* your **most recent assessment**. Identify **one topic** which you need to focus on *(for example: out of school factors affecting educational achievement).*	05 MIN
2.	**Brain dump** - What do you remember about this topic? Write down **everything** that you associate with this topic, *e.g. key studies, theories, key terms, sociologists.* Make it messy - a list or mindmap.	05 MIN

Therapy - fix the gaps with revision strategies

3.	**Revise** this topic using one of the strategies below (or anything else that works): • Go through the lesson on Google Classroom and identify up to 5 key pieces of information to remember - write them down, cover them up and write them down again to see what you remember • Seneca quizzes • Make flashcards on this topic using the Leitner system: have one or two questions on one side and bullet-pointed answers on the other side. • Go through your flashcards - test yourself or get someone else to test you	20 MIN

TAKE A BREAK! *Go outside, get a drink of water, say hello to your pet* = **5-10 minutes**

Test to see if it has worked

4.	Find an exam question that relates to the topic, using the "every past paper question" documents on Google Classroom. Answer the exam question **without your notes** and under **timed conditions**.	15 MIN

Revisit and review to build on feedback

5.	Read through the mark scheme (accessible on the AQA website) and **purple pen your answer** - *what did you miss/forget?* Give the question to Miss Blower for **teacher feedback** - e.g. send a photo by email	05 MIN
