GCSE Economics

How to revise

- Use your PLC to identify each topic area and what you need to know about them
- Create A3 revision maps for each topic
  - Put the key terms on them – memorise these!
  - Analyse the cause and effect i.e. if the government reduces income tax rates then this could lead to an increase in consumption because individuals have more disposable income. This could lead to an increase in AD and GDP/economic growth
  - Evaluate arguments for and against issues in each topic i.e. However, this increase in GDP could lead to increased inflation, which can reduce living standards if wages do not rise at the same rate or higher than inflation
- Get parents, friends and family to test you
- Do exam questions under timed conditions for each topic

Resources available to you

- Monday P6 in BT5 - Please come along to focus on key areas
- Use your GCSE Economics Mock Revision Book
- Use your OCR GCSE Economics textbook
- Use your PLCs located in your exercise books
- Use the PiXL Economics Independence booklet to work on the micro topics
- Use Quizlet
- Use Past papers to do questions. These can be found on the OCR website
- Useful website aimed at A Level but has some good videos and definitions
  - https://www.tutor2u.net/economics
- Email n.cording@hayesfield.com or c.deane@hayesfield.com if you need help
